An Introduction to Iran

Iran is the eighteenth largest country in the world with an area of 1,648,000 km². Its area roughly equals that of the United Kingdom, France, Spain, and Germany combined, or slightly less than the state of Alaska. Iran is home to one of the richest artistic traditions in the world history and encompasses many disciplines, including architecture, painting, weaving, pottery, calligraphy, metalworking and stone masonry. The current Culture of Iran is a mixture of Islamic culture and some elements of the ancient Persian culture. Tehran as the capital of Iran is the largest city in the Middle East. Archaeological investigations and excavations in Tehran demonstrate that, this area was home to civilizations as far back as 6,000 years BC. Iran's economy is a mixture of central planning, state ownership of oil and other large enterprises, traditional agriculture, and small-scale private trading and service ventures. Iran ranks second in the world in natural gas reserves and also second in oil reserves.

IRAN Latest status in Nanotechnology

Items	Total no.
Start-up Companies	112
SMEs/Large Scale Companies	157
Nanotech Labs	76
International Patents	165
ISI Publications (2000 - Jun. 2016)	32650
No. of Post Graduate Projects (last update June 2016)	20400
Ph.D. Projects	3500
M.Sc. Projects	16900
Books Published	Persian: 172, Foreign: 85
Universities Running Ph.D. Programs	23
Universities Running M.Sc. programs	65
Universities and Research Institutes Involved	100
Researchers/Scientists	30000

Exhibition Outline

Mission: To Promote and encourage nanotechnology commercialization

Goals:

- To demonstrate the latest Industrial achievements
- To facilitate commercialization
- To foster collaboration between universities, research institutes and industry
- To highlight ongoing research and future potentials
- To raise public awareness

The exhibition invites from all local and international institutions, laboratories, incubators, companies, and venture capitalists that are involved in nanotechnology sector to participate in this event and show case their:

Technological Achievements

Nano Products

Laboratory Equipment

How to apply:

Please fill in the online registration form by logging into:

http://festival.nano.ir/index.php?ctrl=registration&lang=2§ion_id=43

Exhibition fees:

Standard booth

Space only

€192.00 per square meter

€182.00 per square meter

Note: Value added tax %9 is not included.

Note: The cost for decoration, installation and removal is not included.

Important Dates:

Events	Start	End
Registration	Apr. 01	Aug. 30
Confirmation	Sep. 01	Sep. 15
Payment	On site	On site
Booths Set Up	Oct.03	Oct.04
Exhibition Duration	Oct.05	Oct.8

Previous Events:

The first Nanotechnology Festival was held in Tehran in October 2008. Considering the competencies of Iranian researchers, the main goals of the trade fair were:

- Displaying the competency of the country in the field of nanotechnology
- Presenting the Iran made nano-products
- Commercializing nanotechnology
- Connecting individuals who are active in the field of nanotechnology

Following the success of Iran Nano 2008, an annual event called Iran Nano Festival took shape. Below you can find the characteristics of the past events:

YEAR	NO. OF BOOTHS	SPACE(M2)	NO.OF VISITORS
2008	100	1200	7600
2009	161	15000	19000
2010	164	8000	20000
2011	171	3000	30000
2012	172	3000	30000
2013	174	3000	30000
2014	173	3151	35000
2015	132	3366	35000

Accommodation

For your comfort and convenience during your stay, we recommend the Esteghlal Hotel which is located close to the exhibition venue and also offers a special discount for exhibition participants. For further information you could visit <http://esteghlalhotel.com>.

In terms of travel issues such as ticket, transportation and national tours, we recommend Pardisan Tour & Travel Co. The contact information is available as follows:

Tel: (+98 21) 6643 1270, Fax: (+98 21) 6642 7470

Website: <http://www.pardisantour.net>

Email: info@pardisantour.net

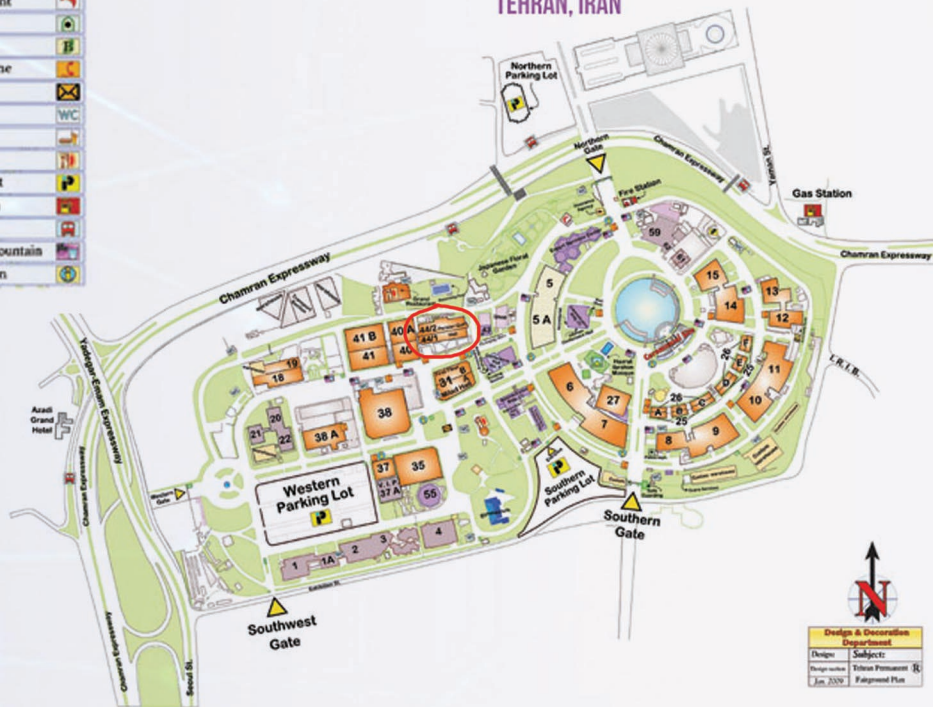

Venue:

The Persian Gulf Hall, International Permanent Fairground, Tehran, IRAN

EXHIBITION VENUE

INTERNATIONAL PERMANENT FAIRGROUND,
TEHRAN, IRAN

Mosque	
Fire station	
Red Crescent	
Police	
Bank	
Public Phone	
Post	
Toilets	
Buffet	
Restaurant	
Parking Lot	
Gas Station	
Bus Stop	
Drinking Fountain	
Information	

Trade Promotion Organization of Iran

The successful experience of the world's leading countries in the economic sphere is the result of their strong focus on the export promotion and development of foreign trade. Iran Trade Promotion organization's (TPO) functions includes promotion, facilitation, provision of information, and administration. It provides support for the business community and its main objectives are:

- Foreign Trade Development of Islamic Republic of Iran - Services & Developing Export Markets for Iran's goods
- Assistance to Iranian SMEs to Expand Internationally
- Enterprise Development and Competitiveness
- Market and Product Development

Organizer

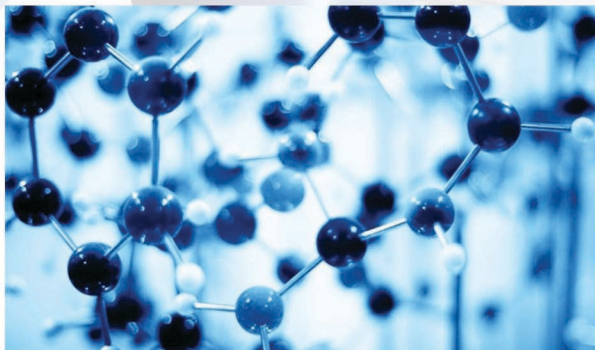

Iran Nanotechnology Initiative Council (INIC)

INIC was officially established in 2003, having as its main objectives the development and promotion of nanotechnology in Iran. The "Future Strategy Plan" as a ten-year nano initiative program was adopted to position Iran among the top 15 countries in the field of nanotechnology and consisted of 33 action plans in the following categories:

1. Public Awareness
2. Human Resource Development
3. Infrastructure Development
4. Industrial Production and Commercialization
5. International Collaborations
6. Policy & Evaluation

The second ten year plan also has been developed and initiated which guides nanotechnology development in Iran for the period 2015 to 2025.
